COURSE OF TURKEY.

Will Insist on Respecting the Treaty of Berlin.

Constantinople, Oct. 6.—The council of ministers held a long session to consider the action of Bulgaria in declaring her independence of Turkey at Tirnova. It was decided in was impossible to accept any proceedings that violated existing treaties. Turkey will address a circular note to the powers pointing out the necessity of taking measures to enforce respect for the treaty of Berlin.

Replying to a telegram sent to the Turkish government by Prince Ferdinand, in which he said that in declaring the independence of Bulgaria he had been compelled to respect the voice of the nation and expressed the hope that friendly relations between the two countries would continue, and that she invited the powers to confer over the situation and as her rights were guaranteed by the powers she will look to them for defense, the Yenal Gazette, the organ of the grand vizier, says: "We are ready to defend our rights with all our strength. As the action of Bulgaria is not only directed against us but against all the powers, we should ask the powers to demand their interests and protect the provisions of the treaty of Berlin." According to this same journal Austria-Hungary has informed the powers of her intention of withdrawing her troops from Sanjak.

Reservists Called Out.

Belgrade, Serbia, Oct. 6.—A ukase calling out all the army reservists of the first class was published here Tuesday. These reservists total 120,000 men. It is explained officially that this step was taken because many of the time-expired soldiers are to leave the ranks Oct. 14, and as neighboring Balkan states are as inflamed as Serbia itself it has been deemed advisable to fill up in advance the vacancies thus to be created.

Free From Contagious Diseases.

Amoy, China, Oct. 6.—This city has been officially declared free from contagious diseases.

Enthusiastically Received.

Philopopolis, Oct. 6.—Official announcement of the independence of Bulgaria, made at Tirnova by Prince Ferdinand, has been enthusiastically received at this city, the capital of Eastern Roumelia. Church bells sounded and large crowds headed by bands paraded the streets and held peaceful demonstrations in front of the various consulates. "Emperor" Ferdinand is expected to arrive here shortly.

Semi-Official Denial.

Sofia, Oct. 6.—The report that orders for the mobilization of 100,000 Bulgarians has been issued were given semi-official denial here.

Extended Over Wide Area.

Manila, Oct. 6.—Restored communication with the northern part of the Island of Luzon, discloses the fact that typhoon which raged in this section last Sunday extended over a wide area and caused considerable damage. The artillery barracks at Stolzenberg were destroyed by the storm and the troops are now camping in tents. The cavalry barracks were also badly damaged. The total loss to the post is estimated at \$36,000.

The schooners Lucia and Soledad were wrecked on the coast of Mindora during the storm on Sept. 27 and all passengers and crew of the Soledad but one drowned. Captain Heinsch and nine members of the crew of the Lucia were also drowned.

Belated reports from all sections show the storm, which reached here Sunday, began Sept. 23 and did damage throughout the area affected amounting to several hundred thousand dollars.

Tried to Lynch Negro.

Los Angeles, Cal., Oct. 6.—There was a scene of riotous disorder in Justice Austin's court Monday in which several persons were slightly injured in an attempt to lynch Edward Martin, the negro who last Friday night assaulted Miss Edith Ralston, a concert singer, at College Grove. Martin was spirited away to superior. Judge Wilbur's court, where he pleaded guilty and was sentenced to life imprisonment.

MEETS AT FRISCO.

Nineteenth Session of Commercial Congress.

San Francisco, Oct. 6.—The nineteenth annual session of the Trans-Atlantic Commercial congress, with 1,000 or more delegates from the western half of the United States, nearly all men of high position in the affairs of the nation and their respective states, began a five-day celebration here Tuesday with a display of enthusiasm by the delegates that augurs well for a successful and interesting convention.

Temporary Chairman Case of Abilene, Kan., called the delegates to order and in his opening remarks pointed the way for many prominent speakers who are to follow him, dwelling at some length on the vast work that there is to be done in the west in the way of the conservation of natural resources and the expansion of the present industries to a far wider scope than has yet been attempted.

Among the delegates are representatives of eighteen states, four territories and six foreign countries, while the national government is also represented in the person of W. R. Wheelock, assistant secretary of the department of commerce and labor.

The opening session was purely one of organization. After the requisite committees were appointed the congress adjourned in order that the delegates might participate in an excursion about San Francisco harbor and many other points of interest.

Thomas F. Walsh of Colorado, Col. Ike T. Pryor of Texas and Colonel Fred W. Fleming of Missouri are among those strongly supported for president for the coming year.

Omaha is being spoken of favorably as the place for the next gathering.

Great interest is being taken by the members of the congress in the project of securing a Federal appropriation for straightening the Missouri river, and this will help Omaha's effort to get the next session.

The report that Galveston is in the field for the meeting next year was denied by Senator Harris of that city, who said Galveston is not in a condition to seek the honor.

LEAPS INTO FALLS.

Twelfth Suicide of This Kind Since July 1.

Niagara Falls, Oct. 6.—Early Tuesday a woman wearing a black hat and long black coat, who said she was from Saginaw, Mich., appeared in the reservation acting strangely. About 8 o'clock she walked toward Prospect Point and before officers could restrain her, passed under the railing and leaped from the bank into the American falls. Nothing more was seen of her. This is the twelfth suicide here since July 1.

Ten Stories High.

Houston, Oct. 6.—The contract was let for the erection of the new Chronicle building. It will be ten stories. A St. Louis contractor received the award.

After spending nearly an hour with Hatfield he said: "If I ever saw or heard of Hatfield I would know him." He says he worked for my father, the late Captain W. M. Bush, of Collin county, for three months in 1896. I have examined father's books closely from 1893 to 1900 and fail to find his name on them. Although I talked to Hatfield for nearly an hour he did not once recognize me. I have tried every way to recall the man, but I cannot."

A BUSINESS CHANGE.

Negotiations were closed Monday, by virtue of which Joseph M. Carnes, M. E. Wallace, J. J. Gilham and George A. Adams acquired the interest of Carnes & Wallace, book and job printers and publishers of The Bryan Eagle. In order to perfect the organization and to place the business on a more permanent basis, application has been made to the Secretary of State at Austin, for a charter. The name and style of the new organization will be The Eagle Printing Company, which succeeds the firm of Carnes & Wallace, and will continue to publish The Bryan Morning Eagle and The Bryan Weekly Eagle, and do a general printing and publishing business.

The following officers of the corporation have been decided upon: J.

M. Carnes, president; M. E. Wallace, vice-president and manager and Geo. A. Adams, secretary and treasurer, and these with Mr. J. J. Gilham will constitute the board of directors.

Provision was made for the editorial work of The Eagle by electing Mr. J. M. Carnes editor-in-chief, and Mr. J. J. Gilham, local editor.

The firm of Carnes & Wallace is responsible for all liabilities incurred by them prior to the change, and all accounts are to be presented to M. E. Wallace, and to him are payable all accounts owing the firm of Carnes & Wallace.

The Eagle Printing Company begins with clean new books, in charge of George A. Adams, secretary and treasurer. The Company's equipment for book and job printing of all kinds, and facilities for publishing are unexcelled in Central Texas, and hundreds of satisfied patrons attest the excellence of its work. It is the intention of the new management to add to this equipment and to increase these facilities from time to time, as occasion may require. The resources at its command are now such that it can promise with confidence, not only to maintain the high standard already attained, but to keep abreast

of the times in all modern

ments.

JOSEPH M. CARNES,
M. E. WALLACE,
J. J. GILHAM,
GEORGE A. ADAMS.

A Word Personal.

It is known to most of the readers of The Eagle that I have been for more than a year on the editorial staff, therefore, in assuming the editorial management I do not consider a formal salutatory necessary.

The publication of a newspaper is purely a business enterprise. The primary business of a newspaper is the publication of the news, especially such news as will interest its readers. In addition to this, a newspaper should advocate whatever is for the material or moral good of its constituency.

The Eagle will stand for civic righteousness, for the largest measure of liberty of the citizen consistent with the public welfare, and in general, for the principles of democracy as taught by Jefferson, Jackson and William Jennings Bryan. At the same time it will recognize the right of those who hold other opinions to advocate them and to embody them in the constitution and laws of the state and nation.

Personally, I am a firm believer in local self government, not only in the reserved rights of the states, but also in the right of every community to regulate its own affairs.

With malice toward none, with charity for all, I shall in the future, as I have done in the past, "follow the light as it is revealed to me."

JOSEPH M. CARNES.

This is to advise my patrons and friends that my connection with The Eagle Printing Company will in no wise affect my insurance business. All business entrusted to my care will receive the same prompt and efficient attention as heretofore. I can be reached by telephone at most any time at either The Eagle office or at my office in the Parker building.

With thanks for confidence and patronage in the past and hoping that I may have a continuance of same, I am,
Very respectfully,
GEO. A. ADAMS.

The Nashville Banner says: "A company has been organized in Atlanta, with a capital stock of \$500,000, to manufacture paper from cotton stalks. The cotton stalk affords a cellulose of the best quality for making paper, and it is claimed that the supply of stocks available in the south is practically inexhaustible. It is estimated that there is a ton of dry stalks for every bale of cotton raised, and that it would require nearly 1500 paper mills, turning out 25 tons of paper per day, to consume the stalks of one cotton crop. As the stalks are valueless for any other purpose, it is claimed that a supply of raw material can be secured at a cost that will en-

able the company to make a superior grade of print paper that will readily compete in price with the wood pulp paper made by the paper trust."

at the International fair in San
Antonio is a piece of good news wired
to The Eagle yesterday afternoon.

Mr. J. D. Steele of Millican, who entered an individual exhibit at the great display, wires The Eagle: "J. D. Steele wins out." This is taken to mean that Mr. Steele has captured first prize for individual display at the fair, and if the surmise is correct then citizens of Brazos county have pulled down two good prizes from those hung up at the fair. Mr. F. W. Yeager was awarded the third prize of \$100.00 as announced in The Eagle yesterday morning and the prize taken by Mr. Steele, as mentioned today, puts old Brazos county prominently before the world as an agricultural proposition that is hard to beat.

Much credit is due Mr. Steele for his efforts and to Mr. Yeager and the farmers who co-operated with him in having Brazos county represented at the fair and both gentlemen are to be congratulated upon the fine showing made and the results obtained.

Excitement in Europe.

There are apprehensions of war in the Balkan peninsula. Prince Ferdinand of Bulgaria has renounced the suzerainty to Turkey and proclaimed his independence. At the same time Austria-Hungary has taken possession of Bosnia and Herzegovina, presumably in concert with the Bulgarian movement.

By the Berlin treaty of 1878 the signatory nations, including all the great European powers, bound themselves to respect the integrity of the Balkan empire. The action of Bulgaria and Austria-Hungary is a violation of this treaty and may lead to a conference of the nations interested in the peace of the Balkans.

There is perhaps no other part of the world that has been the theater of so many historic dramas as the Balkan peninsula. In consequence of bloody wars that have raged there at intervals ever since the dawn of history there has been little opportunity for the development of the resources of the country or for improvement of the people. The manhood of the various races leading for supremacy has been the cause of the modern inhabitants of the Balkans, and the modern inhabitants of the Balkans are the result of the wars.

CONSERVATION COMMISSION

Preliminary Work of Southern Commercial Congress.

Washington, Oct. 5.—The National Conservation Commission has received word that at least a thousand of the leading business men of the South will be present in Washington when the Commission holds its first full meeting here early in December. This information comes in a letter from G. Grosvenor Dawes, Secretary of the Montgomery, Ala., Commercial Club, who tells of a meeting of the representatives of numerous business associations in the Southern States, held in Atlanta. These men formed a working organization, and, after receiving assurances of support from commercial bodies all through the South issued a call for a Southern Commercial Congress. The time and place were set so that the members can be in Washington during the first meeting of the Conservation Commission on December 1, the Conference between the Commission and the Governors of the States or their representatives which follows, on December 8, and the meeting of the National Rivers and Harbors Congress which will be held here during that time, in the proceedings of all of which the men who will compose the Southern Commercial Congress are intensely interested from a business standpoint. The chief purpose of the Southerners in holding their big meeting is, in the words of one of the originators, "the provoking of a fuller understanding by the people of the South of the gifts that nature has placed under their control." But, without discounting the vital importance of promoting the business interests of their section of the country, the promoters of this Congress in Washington say they hope that it will have an even deeper significance and bring about a closer union between the North and the South. "Of course the Congress has practical and commercial aspects," says one of these men, "but there lies in the minds of the originators an ethical purpose looking towards a fuller understanding and union between those who have for a generation suffered from misunderstanding and a seeming separation of interests."

Mr. Dawes in his letter suggests that the attainment of a fuller understanding between the South and other parts of the country would have its effect in bettering business conditions in the South also. He writes: "The Southern Commercial Congress is also intended as a means of combating hindering prejudices that exist against the South in both Northern and Eastern States. We have felt that such prejudices are most easily removed by personal contact; and we shall therefore work to have present on December 7 and 8 a thousand or 1500 leading business men of the South who will later stay to participate in the deliberations of the National Rivers and Harbors Congress, and also be present in Washington to receive inspiration from the reports made to the National Conservation Commission."

"Beyond all this we feel that the presence of our solid business men in meetings made up largely of solid business men of the North and East will act as a guarantee and pledge of business men of the South."

The ministers present were Rev's A. W. Wood, T. A. Serey, John Swanwick, D. C. Hargroves, A. W. Mays, Hy. Hunter, S. T. Thomas, Roland Spiller, W. N. Crenshaw and the pastor, T. C. Ferguson.

There was a splendid programme which was gone through with with quite a manifestation of christian spirit.

The good people of Harvey know how to entertain sumptuously and provided splendid basket dinners for three days during the meeting. Rev. Roland Spiller came before the board, and after an examination was granted a primary license to preach the gospel.

Revs. Jno. Swanwick and D. C. Hargroves were appointed delegates to represent this body at the general convention to be held at Coppell, Tex., sometime in November.

This meeting was attended by a large crowd and a good delegation, all the churches under the jurisdiction being represented except two.

On Sept. 30th, before the association began, there was organized a Ministers Conference with a membership of nine.

We herewith express thanks to the pastor and the ladies of Brightlight for their kind hospitality.

They point out also that the usefulness of these rivers can be increased not only for manufacturing, but for transportation. Philadelphia Begins Gala Week. Philadelphia, Pa., Oct. 5.—A superstitious man watched the heroic statue of William Penn which tops the great tower of the City Hall, when the whistles and bells and cannon began to announce the two hundred and twenty-fifth anniversary of the birth of the municipality this morning. This afternoon he was almost willing to attest the statement that the bronze statue of the great Quaker actually danced for joy. Many people who passed the gorgeously decorated edifice today thought they detected an added benevolence in the features of the illustrious founder of the city.

Today's contribution to the Founder's Week celebration was of such a nature as to cause the shades of the departed to hover over the city to build up which they had given their best in life, it was more than enough to interest and entertain every citizen of this city of over a million and a quarter inhabitants and the tens of thousands of strangers gathered to assist in the anniversary observance.

For one continuous hour at day-break 10,000 whistles sounded the reveille and the people soon afterward began to assemble on the streets to witness the monster military parade, which did not start until after noon. The city was freely decorated with bunting and flags, especially the thoroughfares devoted to business. The people were dressed in holiday attire, and many stores and factories were closed in order to permit clerks and workmen to enjoy the day's festivities.

The initial event of the day's programme was a public reception held by Mayor Reyburn in honor of the city's invited guests. This was followed by the unveiling of a tablet in City Hall courtyard to Rochambeau, the great Frenchman who gave noble assistance to the American cause during the Revolution. M. Jusserand, the French ambassador to the United States, performed the unveiling ceremony.

This afternoon was given over entirely to the military parade and review, which was witnessed by tens of thousands of spectators. Between 25,000 and 30,000 troops participated in the demonstration, including United States soldiers, and marines, several regiments of the National Guard of Pennsylvania and detachments from several foreign war vessels now anchored in the Delaware.

This evening will see a great celebration in the Academy of Music which will be attended by high government officials, governors of several States, mayors of cities and a number of other invited guests.

what is expected to be the most notable gathering of Germans ever held in the United States. This will be in commemoration of the two hundred and twenty-fifth anniversary of the foundation of Germantown by Francis Daniel Pastorius, and representatives of many States will participate. The corner stone of a great monument at Germantown will be laid, and there will be a parade of the German societies of Philadelphia and Pennsylvania numbering more than 15,000 persons. In the afternoon the police and fire departments of Philadelphia will parade.

A Tall Family. Spokane, Wash., Oct. 6.—There are more tall people in Libby, Mont., east of here, than in any other town of its size on the continent. Ten members of one family have a combined height of almost 75 feet. The father weighs 215 pounds, is 6 feet 2 1/2 inches tall. The mother weighs 225 pounds and is 5 feet 6 inches tall. The children size up as follows: First son, 6 feet 2 1/2 inches tall, 21 years; second son, 6 feet 4 inches, 19 years; first daughter, 8 feet 8 inches, 17 years; third son, 6 feet 4 inches, 16 years; fourth son, 5 feet 10 inches, 14 years; fifth son, 5 feet, 11 years; second daughter, 5 feet 2 inches, 9 years; sixth son, 3 feet 10 inches, 4 years.

Attractive Laundry Work

has a charm of its own aside from a pleasing personality. That is why work done by the Bryan Steam Laundry has so many admirers. The simple reason is that we "know how" to do the work properly, and furthermore we do it. We take the trouble to do it right. Lots of people know how to do a thing, but they haven't pride enough to do it properly. We are not that kind.
